

GRK[®] FASTENERS[™]

GREATNESS AT EVERY TURN

GRK Fasteners offers a wide selection of fasteners that includes multipurpose, structural, deck, trim, cabinet, composite and stainless screws, but they all have one thing in common—quality.

GRK Fasteners allows users to complete jobs with more productivity. Our patented W-Cut[™] Threadform feature reduces installation torque and allows fast driving and ease of install, the recessed Star Drive eliminates recess stripping for improved productivity, and the Zip-Tip[™] feature eliminates the need for pre-drilling and allows one-step installation. GRK's feature-rich screws drive jobsite productivity and allow users to keep moving from one job to the next.

GRK fasteners are corrosion resistant, approved for use in treated lumber and designed for both interior and exterior use.

R4™ MULTI-PURPOSE FRAMING & DECKING SCREWS

FASTER DRIVE FOR IMPROVED PRODUCTIVITY

GRK's R4™ Multi-purpose Screw is a versatile, code-approved fastener for hundreds of applications. Its feature-rich design provides a fast and reliable connection every time.

- **Fast Bite Tip:** Provides a fast start for one-step installation
- **Zip-Tip™:** Eliminates pre-drilling
- **W-Cut™:** Low torque, faster drive
- **Precision Fit:** Reduces wobble between R4 screws and GRK bits for improved productivity¹
- **CEE Thread™:** Enlarges hole to reduce splitting²
- **Star Drive Recess:** Zero stripping, with 6 points of contact
- **Underhead Cutting Teeth:** Cuts wood fiber & provides flush seating
- **GRK Head Markings:** Easy identification of genuine GRK screws
- **Climatek™ Coating:** ICC-ES AC257 code approved for use in treated lumber³
- **Code Approved:** For structural applications (see ESR-3201)⁴
- Some sizes also available in PHEINOX™ 305 and 316 grade Stainless Steel • For interior / exterior use

ESR-3201

AC257 Treated
Lumber Approved

1. Precision Fit included on #9 and #10 sizes only
2. CEE Thread included on fasteners 2" and longer
3. For cedar, redwood and other naturally protected woods, GRK Pheinox™ 305 and 316 stainless steel is recommended
4. ICC Code Approval for #9, #10, and #12 sizes only

RSS™ STRUCTURAL RUGGED STRUCTURAL SCREWS

EASY TO INSTALL LAG ALTERNATIVE

GRK's RSS™ Rugged Structural Screw is a structural fastener designed for ease of installation and the strongest of connections. RSS fasteners drive into most woods without the need for pre-drilling. The specially engineered design results in a low-effort installation, especially compared to conventional lag screws.

- **Fast Bite Tip:** Provides a fast start for one-step installation
- **Zip-Tip™:** Eliminates pre-drilling¹
- **W-Cut™:** Low torque, faster drive
- **Precision Fit:** Reduces wobble between RSS screws and GRK bits for improved productivity²
- **Integrated Washer Head:** Maximum clamping force
- **Star Drive Recess:** Zero stripping, with 6 points of contact
- **GRK Head Markings:** Easy identification of genuine GRK screws
- **CEE Thread™:** Enlarges hole to reduce splitting³
- **Climatek™ Coating:** ICC-ES AC257 code approved for use in treated lumber³
- **Code Approved:** For structural applications (see ESR-2442)⁴
- Some sizes also available in PHEINOX™ 305 and 316 grade Stainless Steel • For interior / exterior use

DECK ELITE

DECKING SCREWS

SPEED. QUALITY. ELEVATED CRAFTSMANSHIP

GRK's Deck Elite screws are designed for use in wood deck boards and provide a quick drive and clean finish. Deck Elite screws start immediately in wood with a smooth, fast drive to increase productivity on the job and the tan color of the screw provides an ideal finish.

- **Tan Color:** Provides an ideal finish
- **Fast Bite Tip:** Provides a fast start for one-step installation
- **Zip-Tip™:** Eliminates pre-drilling
- **W-Cut™:** Low torque, faster drive
- **CEE Thread™:** Enlarges hole to reduce splitting¹
- **Star Drive Recess:** Zero stripping, with 6 points of contact
- **GRK Head Markings:** Easy identification of genuine GRK screws
- **Corrosion Resistant Coating:** Resists rust and keeps decks looking new
- For use in wood deck boards, fencing, and deck rails, including pressure treated lumber²
- For interior / exterior use

1. CEE Thread included on fasteners 2" and longer
2. For cedar, redwood and other naturally protected woods, GRK Pheinox™ 305 and 316 stainless steel is recommended

FIN/TRIM™

FINISHING TRIM HEAD SCREWS

PROFESSIONAL FINISH, PROFESSIONAL LOOK

GRK's Fin/Trim™ screws are an excellent choice for most fine carpentry applications, as well as window extension jambs, joining cabinets and more. A combination of the smallest screw head available and code approved structural performance means the most secure, concealed fastening in the industry.

- **Trim Head:** Clean, finished look
- **Star Drive Recess:** Zero stripping, with 6 points of contact
- **W-Cut™:** Low torque, faster drive
- **Zip-Tip™:** Eliminates pre-drilling
- **Climatek™ Coating:** ICC-ES AC257 code approved for use in treated lumber¹
- **Code Approved:** For structural applications (see ESR-3201)
- Some sizes also available in PHEINOX™ 305 and 316 grade Stainless Steel• For interior / exterior use

RT COMPOSITE™

EXTERIOR TRIM SCREW

INSTALL RIGHT THE FIRST TIME

The RT Composite™ screw is a specially designed fastener for attaching composite and cellular PVC materials. Reverse threading under the head of the fastener helps the screw head disappear beneath the surface of the classic wood composite material while reducing or eliminating the dimple that is common in this substrate.

- **Trim Head:** Clean, finished look
- **Underhead Reverse Thread:** Reduces or eliminates mushrooming
- **Star Drive Recess:** Zero stripping, with 6 points of contact
- **W-Cut™:** Low torque, faster drive
- **Zip-Tip™:** Eliminates pre-drilling
- **Climatek™ Coating:** ICC-ES AC257 code approved for use in treated lumber¹
- Available in Climatek or White Climatek coated finish
- Some sizes also available in PHEINOX™ 305 and 316 grade Stainless Steel• For interior / exterior use

PHEINOX™ STAINLESS STEEL SCREWS

PHEINOX™ 305 CORROSION RESISTANCE FOR HIGH MOISTURE ENVIRONMENTS

PHEINOX™ 316 MARINE GRADE PROTECTION FOR SUPERIOR CORROSION RESISTANCE

GRK's PHEINOX™ line of stainless steel fasteners feature designs from R4, RSS, Fin/Trim, and RT Composite screws in corrosion and stain resistant material.

GRK recommends PHEINOX™ 305 stainless steels screws for applications that require superior corrosion resistance in exterior environments with high moisture content, such as docks, boardwalks, pools, and hot tubs. PHEINOX™ 305 stainless is also recommended for use with cedar, redwood and various other wood species that have higher acid content. PHEINOX™ 305 stainless steels screws are recommended for applications located more than 1 mile from the coast.

PHEINOX™ 316 stainless steels screws are recommended for applications where extreme corrosion resistance is necessary, such as environments with high exposure to chlorides- such as de-icing salts- and in coastal applications within 1 mile of the coast. They are also suitable for use in chemically treated wood and naturally-protected wood such as cedar and redwood.

PHEINOX™ 305 Stainless Steel

- For use in cedar, redwood, specialty hardwood, IPE, and Mangaris
- Corrosion resistance for wet environments
- Stain resistant in specialty wood

PHEINOX™ 316 Stainless Steel

- For use within 1 mile of the coast
- Marine-Grade protection for superior corrosion resistance
- Superior Corrosion resistance for coastal environments
- Stain resistant in specialty wood

TOP STAR™

ADJUSTABLE SHIM SCREWS

FOR PLUMB INSTALLATION OF WOODEN DOORS AND WINDOWS. NO MORE SHIMS!

GRK's adjustable Top Star™ shim screw is a screw within a screw that allows you to install wooden doors or windows without the use of shims. The quick and easy system reduces labor and allows for hassle free adjustment to ensure plumb installation.

The 4-point top sleeve provides a secure hold into the frame, while the GRK Star Drive bit is used to make the adjustments needed for a perfect, shim-free installation.

The Top Star's highly-engineered system can be used for installation of wooden doors, windows, insulation, paneling, wall-units, and cabinets.

- **Recessed Star Drive:** Zero stripping, with 6 points of contact
- **4-point 3/8" Diameter Threaded Sleeve** provides a secure hold in your wooden frame
- **Micro-Adjustments** allow for an absolute plumb installation
- **Use with GRK's Top Star™ Crown and T-15 Star Bit System**
- **Zinc Plated** finish for lasting durability
- **For Shim Free Installation** of wooden doors, windows, insulations, paneling, built-in wall units, and cabinets

U.S (Std.) Size (Dia. x Length)	Pro Pack Part No.	Pro Pack Pail Qty.
3/8" x 2-1/2"	20157	100
3/8" x 3-1/8"	20161	100

• Pro Packs need to be ordered in multiples of two

The Complete Top Star™ System Includes:

Crown / Bit	Blister Pack Part No.	Blister Pack Qty.
Includes: (1) Crown / Bit with each	86465	1

• 5/16" drill bit not included

The Bit drives the Top Star™ into the material when the Crown and Bit are combined. Using the Bit without the Crown adjusts the distance.

The Threaded Sleeve moves independently from the Top Star™ unless locked by the Crown. When locked, the Top Star™ gets driven into the material.

Unlocked, the installed Top Star™ is ready for leveling.

APPLICATIONS:

- Wooden Doors
- Windows
- Insulation

CALIBURN™ CONCRETE SCREW

HEAVY DUTY CONCRETE AND MASONRY FASTENER

Caliburn™ Concrete screws are professionally engineered fasteners with a patented thread design for ease of driving the screw into concrete and similar applications.

- **Star Drive Recess:** Zero stripping, with 6 points of contact
- **Aggressive Heavy Duty Threads** lock into concrete and can be removed/reinserted without screw damage
- **Caliburn™ XL:** washer head design for superior holding power
- **Climatek™ Coating:** ICC-ES AC257 code approved for use in treated lumber
- Ideal for use in anchoring to concrete or wood to concrete applications including basement framing and sheds

APPLICATIONS:

- Wood to Concrete Framing
- Electrical and Plumbing Fixtures
- Caliburn XL for Heavy Duty Concrete Anchoring

POWDER COATED HEAD FOR A CLEAN FINISHED LOOK

This screw has an integrated washer-head and is complemented by a rubber washer below the screw head. This feature also helps protect the washer from prolonged exposure to the sun for long lasting, secure siding installations.

- **White Color, Low Profile Head** produces a clean, finished look which is preferred for moldings, closet organizers, and metal siding
- **Washer Head** increases holding power
- **Rubber Washer:** seals drill hole from the elements
- **W-Cut™ Thread Design** tiny saw blades reduce torque by cutting through the material
- **ZIP-TIP™** for easy starts and no pre-drilling
- For use in interior or exterior applications including metal siding, garage door trim, and even closet organizers. Not for use with treated lumber

APPLICATIONS:

- Metal Siding
- Garage Door Trim
- Closet Organizers

Tapcon®

 **DRIVING CONCRETE CONNECTIONS**

Tapcon® is the #1 recognized screw anchor brand in the industry. For decades, Tapcon has helped professionals get their concrete anchoring jobs done right the first time, every time.

The blue, corrosion-resistant coating enables our anchors to withstand the harshest conditions, and their unmatched performance (30% less torque and 20% more holding power) in concrete, block and brick applications make them an excellent alternative to expansion anchors, plugs and lag shields.

For quality, strength, and ease of installation, nobody matches the confidence pros get from using the original true blue screw.

TAPCON®

CONCRETE SCREW ANCHORS

NOTHING ANCHORS LIKE A TAPCON.

Tapcon concrete anchors deliver the ease of use, superior precision, and unparalleled performance that professionals demand.

- **Eliminate bit slips** and increase productivity with star recess on flat head Tapcon anchors
- **Resist head snaps** and spin outs with under-head ribs on hex head Tapcon anchors
- **Superior holding strength** for confidence in a job done right
- **Corrosion resistant**, long lasting performance with Climaseal™ coating
- **WERCS threadform** allows for easy installation across a variety of masonry substrates
- **ICC-ES** recognized for use in concrete and masonry (ESR-2202 & ESR-1671)

APPLICATIONS:

Star Head

- Furring Strips
- Wood Framing
- Window Frames

TAPCON® CONCRETE SCREW ANCHORS

TAPCON+®

HEAVY DUTY CONCRETE SCREW ANCHORS

STRONGER. FASTER. EASIER.

Tapcon+ unmatched performance in concrete, block and brick applications make them an excellent alternative to expansion anchors, plugs, lag shields and have a blue corrosion resistant coating that enables them to withstand the harshest conditions. That's why when pros look for quality, strength and ease of installation, they choose Tapcon.

- **ICC-ES Approved** for use in uncracked & cracked concrete and seismic conditions (ESR-3699)
- **Heavy-Duty Holding Power** in all concrete conditions
- **Flexibility:** to install closer to the edge & closer together with confidence
- **Precision Fit:** A long-standing reputation for quality, strength, and ease of installation from industry professionals

Trubolt WEDGE ANCHORS

HEAVY DUTY CONCRETE ANCHORS

MAXIMUM STRENGTH FOR HEAVY-DUTY CONCRETE ANCHORING

Trubolt Wedge Anchors offer maximum strength and ultimate flexibility making them the PRO choice for heavy-duty anchoring. This wedge anchor features a high-strength body that is built to resist tension and shear loads.

- **ICC-ES Approved** for use in uncracked concrete (ICC-ES-ESR-2251)
- **Heavy-Duty Holding Power** in concrete conditions
- **Fully Threaded Anchor Design** for application versatility
- **Stainless Steel Clip** provides extra corrosion protection
- A long standing reputation for quality, strength, and ease of installation from industry professionals

RED HEAD® CONCRETE ANCHORS

CONCRETE ANCHORS

SLEEVE ANCHOR

VERSATILE ANCHORING SOLUTIONS FOR CONCRETE & BUILDING

Red Head can help you get any job done right, from heavy-duty ceiling applications to light-duty work in block and brick.

Our sleeve anchor is our most versatile anchor with the ability to fasten in block, brick, masonry, and solid concrete.

For a lighter duty project, Poly-Set and Hammer-Set are great choices for block, brick and concrete and allow for a quick and easy installation. For heavy-duty overhead applications, use our Drop-In anchors. Use the complete family of anchors and SDS bits to ensure precise hole depth and diameter when using our anchors.

A7+ ADHESIVE ANCHORS

HIGH STRENGTH ADHESIVE ANCHORING SOLUTION

CONCRETE ANCHORING AND REINFORCING SOLUTIONS

For jobs requiring versatility, high performance, and efficiency, Red Head's A7+ Concrete Adhesive Anchor is the one anchoring solution that does it all. A7+ takes only 45 minutes to fully cure and can be used in challenging conditions like cold temperatures and water-filled holes. A7+ is also ICC-ES approved for cracked concrete and seismic building code requirements.

- **ICC-ES approved** For use in cracked concrete and seismic conditions (ICC-ES-ESR-3903)
- **Quick 45 minute cure time** for fast installation
- **Easy dispensing** with a standard caulk gun, eliminating the need for any special tools
- Increased productivity with a successful cure in saturation concrete and water-filled holes
- A long-standing reputation for quality, strength, and ease of installation from industry professionals.

ESR-3903

ESR-3951

A7+ can also be used in any standard medium-duty caulk gun, eliminating the inconvenience of needing a special dispensing tool. Combine the simplicity of dispensing with the quick-curing product, and installation is fast, easy, and doesn't take time away from the rest of the project.

The A7+ concrete adhesive anchoring solution is a high-performing anchor that rivals other products on the market in both price and features. This high performance and efficiency allows for less time on the job and more productivity.

Providing code approved performance and a fast 45 minute cure time, Red Head A7+ is the concrete anchoring adhesive that delivers.

Teks®

Teks was established in 1967 with the introduction of the original self-drilling screw. Since then, we have continued to innovate and provide value-added metal fastening solutions to the construction market.

We take pride in our commitment to operational excellence, superior service and new product development. That has guided the company through decades of growth by meeting the ever-changing needs of the residential/renovation construction industry. Focusing on the needs of our end-users enables us to optimize our product offering and service based on their requirements.

TEKS® METAL FASTENERS

ROOFING SCREWS

Teks Colored Roofing Screw

Teks Roofing Screw

Teks Elite Roofing Screw

TEKS ROOFING SCREWS

Teks Roofing Screws provide secure metal to metal fastening with strong holding power, without need to pre-drill.

- The **self-sealing neoprene washer** provides a waterproof seal.
- The **premium finish** provides exceptional corrosion resistance in harsh outdoor environments.

Teks colored roofing screws are designed for fastening colored metal roofing and siding panels for a perfect color match that provides a clean look and quality finish.

- **Full head paint coverage**
- Incorporates durable and long lasting liquid paint
- **High grade steel**
- **Weather tight seal**

The Elite screws are trusted for their superior drilling performance, fast installation and holding power – making them the go-to screw for pros who want unparalleled performance and superior results.

- **Maxiseal™ Washer:** Washer attached directly to head of screw for better waterproofing - even at an angle.
- **Shankguard™:** Improved under-roof corrosion resistance.
- **Hi-grip™* Threading:** Prevents water entry and over-drilling
*Not available on 1" screws
- **Climacoat Coating:** No streaking or rust from corrosion
- Comes in drill point and sharp point

APPLICATIONS

ROOFING SCREWS:

- Ideal for attaching metal roofing and siding
- Sharp point for use in metal to wood applications
- Drill point for use in metal to metal applications

TEKS® METAL FASTENERS

METAL TO METAL SCREWS

SECURELY FASTEN METAL WITH SPEED

Teks® fasteners are offered in sharp and drill points that easily penetrate light to heavy gauge metal and wood. Professionals no longer have to struggle when engaging their work surface.

Teks® fasteners are offered in a wide variety of head styles to meet professionals installation needs. No tool slippage or cam-outs even with old sockets and worn bits. Professionals can drill, tap, and fasten – all in one motion.

- **Drive surface and recess:** Reduces cam-outs to prevent slipping during installation
- **Drill Points:** Self-drills through light to heavy gauge metal with ease
- **Sharp Points:** Self-pierces into light gauge metal to start drilling faster
- **Self-Tapping Threads:** Taps their own threads to provide less effort when fastening into metal
- **Corrosion Resistant Finish:** Protects the job's appearance with long lasting coating

APPLICATIONS

METAL TO METAL:

- Attaching HVAC
- Electrical
- Metal framing
- General metal to metal applications

TEKS® METAL FASTENERS

LATH SCREWS AND WOOD TO METAL SCREWS

LATH SCREW

WOOD TO METAL SCREW

Teks Lath Screws provide secure metal-to-metal and metal-to-wood fastening with strong holding power, without the need to pre-drill.

- **Lath head:** Lath Screws feature a low-profile head for a semi-flush finish for virtually any application
- **Self-tapping threads:** Ensure strong holding power
- **Zinc plated finish:** Protects the job's appearance.

Teks Wood-to-Metal screws help you secure wood to metal without pre-drilling. The special wings ream a hole in the wood to prevent thread engagement during drilling; these wings break away when self-tapping into metal providing a secure hold.

- **Precision point with wings:** Designed to drill, tap, and fasten all in one motion
- **Climacoat premium coating:** Provides a long life finish for exterior applications
- **High performance drive:** Surfaces reduce cam-outs to penetrate surface the first time for easy installation
- **Wings:** Ream a hole in the wood to prevent thread engagement and break away when self-tapping into metal

APPLICATIONS

LATH SCREWS:

- Attaching lath to wood or steel studs for stucco/plaster applications
- Attaching pre-drilled metal brackets to post-framing
- Any general applications requiring a wide, low-profile head

WOOD TO METAL:

- Attaching roof/subfloor decking
- Attaching trailer beds to frame
- Attaching wood headers to steel frame

BACKER-ON[®], ROCK-ON[®]

CEMENT BOARD SCREWS

CEMENT BOARDS FASTENED RIGHT

Backer-On[®] cement screws are designed for attaching HardieBacker[®] cement board and Rock-On[®] cement board screws are designed for attaching Durock[®] cement board to wood or light gauge steel studs. The patented serrated head design countersinks for a flush finish even at angle, providing a smooth surface for tile installation. The T-25 Star Drive recess provides Stikfit™ for one-handed installation. Climacoat corrosion resistant finish prevents rust from bleeding into grout. Making it perfect for use in high moisture areas such as bathrooms and kitchens.

Backer-On[®] and Rock-On[®] cement board screws comply with ANSI standards for cement board installation as specified by cement board manufacturers. Cement board manufacturers require ANSI compliance in order to remain eligible for warranty.

- **Serrated Head:** Designed to drive flush even at an angle
- **Star Drive with T-25 Bit:** Provides Stikfit™ for easy one-handed installation and eliminates cam-outs
- **Hi-Lo / Single Threads:** Starts quickly and drives smooth in cement boards
- **Sharp Points:** Offers immediate pick-up and eliminates the need to pre-drill
- **Climacoat Finish:** Corrosion resistant for preventing rust from bleeding into tile

#9 x 2-1/4"			23520	M/100

APPLICATIONS:

- Attaching fiber cement board to wood or light gauge steel framing
- Attaching fiberglass reinforced cement board to wood or light gauge steel framing

Pro Tip: Standard roofing nails, dry wall screws, and other alternatives to cement board screws are typically not specified by cement board manufacturers and not ANSI compliant.

E-Z Ancor® Twist-N-Lock

E-Z Ancor® Stud Solver

E-Z Ancor® Toggle Lock

E-Z Ancor® Heavy Duty
Toggle Lock

EASY TO INSTALL WITH STRONG HOLDING POWER

E-Z Ancors® are ideal for hanging accessories, signs, fixtures, and shelving units on drywall. Designed to self-drill flush into drywall for easy and fast installations. No pre-drilling necessary. The threads are formed to provide increased stability and a secure hold.

E-Z Ancor® Twist-N-Lock is designed for light to medium-duty applications. The audible click provides confirmation of the anchor being firmly set. Threads cut deeply to resist pull-out and provide a secure hold.

E-Z Ancor® Stud Solver is designed for light to medium-duty applications. Installs anywhere on a wall, even if you hit a wood stud behind the drywall. Threads cut deeply to resist pull-out and provide a secure hold.

E-Z Ancor® Toggle Lock is designed for heavy-duty drywall applications. The superior 1-piece assembly prevents losing extra pieces behind the wall. The toggle bar swivels easily during assembly to provide a secure hold.

Buildex® Stucco Anchor is designed for light to medium-duty applications in stucco. The zinc plating is designed to be durable in exterior and interior applications. Kits include a drill bit for installation.

E-Z Ancor® Heavy Duty Drywall Toggle Anchors are designed for medium to heavy-duty hollow wall applications. The metal toggle bar clamps the wall providing an even and secure hold. The flexible plastic straps allow the toggle bar to swivel for easy installation.

- **No Pre-Drilling:** Screws directly into drywall with a Phillips screwdriver
- **Self-Piercing Point:** Positions anchor in desired location without slipping and starts self-drilling faster
- **Clean Finish:** Installs flush into drywall
- **Strong Holding Power:** Prevents loose connections and items from wobbling

Warning: Do not use Twist-N-Lock or Stud Solver anchors for ceiling applications. Do not use for mounting televisions. Load ratings are for items hung flush to the wall. Load ratings decrease when hanging items that project from the wall.

APPLICATIONS:

For Mounting:

- Picture Frames
- Shelving
- Mounting Brackets
- Hooks
- And more

LIABILITY AND WARRANTIES

Mechanical Fastening Warranty: (Includes GRK Fasteners, Tapcon, Red Head, Ramset, Teks, Rock-On, Backer-On, and E-Z Anchor). ITW Brands warrants that these products are free from defects in material and workmanship. ITW Brands's sole liability for any breach of this warranty shall be to replace this product or refund the purchase price.

Liability: Claims against GRK or ITW Brands shall be limited to a refund or credit for the price billed or paid for faulty or incorrect merchandise. Seller shall not be responsible for buyer's manufacturing costs, labor, alternate purchases, extra freight, replating, plating, lost profit, good will, recall costs, or other incidental or consequential damages.

Refunds/Replacements: In order to request a refund or replacement, please contact ITW Customer Service at BrandsCS@itwbrands.com or 877 489-2726 to start the process.

THERE ARE NO UNDERSTANDINGS, AGREEMENTS, REPRESENTATIONS, OR ADDITIONAL WARRANTIES, EXPRESSED OR IMPLIED (INCLUDING ANY REGARDING WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE), NOT SPECIFIED HEREIN, RESPECTING ANY SALE OF PRODUCTS BY GRK FASTENERS™ (TO THE EXTENT PERMITTED BY LAW).

LIABILITY AND WARRANTIES

GRK Fasteners™ (“GRK”) is a distributor of commercial-grade fasteners. The parts that we supply are quality inspected by independent labs.

We maintain lot traceability on all products listed in this catalog as long as they are in their original bulk boxes. Certifications are maintained on all fasteners.

Hydrogen Embrittlement: GRK takes measures during production of all fasteners to mitigate hydrogen embrittlement, including post-coating baking. These processes, however, do not guarantee that hydrogen embrittlement will not still be present or that it will not occur at a later date while in service. Specialized testing or a substitute part may be required, depending on the application.

GRK Warranty: GRK warrants to the first retail purchaser that its Climatek™ coated, Deck Elite coated, and PHEINOX™ stainless steel screws will not rust under normal environmental conditions when used in accordance with the recommendations listed in this catalog. This warranty is not transferable. Visit www.grkfasteners.com for more information.
