

The Gold Standard of next generation Pine Trim solutions

Ingrained Precision
in everything we do

FEATURES

RESOURCES

Solid Gold is the “Gold Standard” for solid (no finger-joints) interior and exterior trim. Solid Gold utilizes the patented Tru-Core treatment process resulting in 100% penetration (heartwood and sapwood) of every board.

Solid Gold is ideal for all exterior and interior trim applications where a solid piece of trim is preferred over finger jointed products.

Claymark finishes their solid clear Radiata Pine boards with the same “next generation” UV cured sealer and 100% acrylic primer system as used on Centurion® to help prevent tannin and resin bleed, providing better topcoat adhesion and flexibility.

SOLID GOLD® FEATURES

- Unique carrier system penetrates microscopic channels in resins and glues
- 100% penetration of the Sapwood and Heartwood
- No damage to the wood structure
- No volatile organic solvents or harmful chemicals!
- 3 EPA registered and globally recognized fungicides
